British Scouting Overseas

British Scouting Overseas is a UK Scout area, providing UK Scouting to UK citizens (and in some cases other nationalities) who are living overseas. BSO exists to support families around the world where, due to cultural or language barriers, it is not always possible for young people from the UK to join local Scout Groups in the country where they reside. Our aim is to ensure that all members of BSO will feel they are full members of UK Scouting. They will enjoy their activities in a safe and secure environment best suited to their local circumstances and will have access to high quality support and advice no matter where in the world they may be situated.

British Scouting Overseas (BSO) is made up of approximately 50 Scout Groups (5 1/2 – 14 years old), 17 Explorer Scout Units (14 – 18 years old) and 5 Scout Network Units (18 – 25 years old). These are spread across 25 countries worldwide! There are approximately 2700 young people in BSO, and the delivery of the programme is supported by around 600 adult volunteers, who have roles varying from section leaders, to skills instructors, executive committee members and volunteer managers. Due to the nature of BSO, groups open and close as demand dictates.

The support and structure is flexible and adaptable to suit local circumstances and requirements. All BSO members are members of The Scout Association, have access to the same resources and support from the UK Scout Association's Head Quarters at Gilwell, and participate in the same programme and activities as UK-based scouts.
