

# **Craft Box - Grass Whistles**

This activity is for Cubs but any section or leaders could take part too !

### What you need:

- Grass blades
- Hands
- Washing up liquid
- Paper towel

#### How to make it:

Did you know you can turn a single blade of grass into a whistle?

- Start by picking a thick and wide piece of grass. Some varieties of lawn grass are better than others for this purpose. You might want to pick several blades of grass and experiment with different ones, since each one will whistle at a different pitch.
- 2. If you're uneasy with dirt, feel free to rinse the grass thoroughly to remove any dirt. You can use washing up liquid if it makes you feel better. Pat dry with a paper towel.
- 3. Hold the blade of grass flat and stretched between your fingers.
- 4. Gently press to your lips and blow lightly on the blade. If it doesn't whistle right away, keep trying! You'll quickly work out the best way to do this and get the hang of it !
